Andrew, Hi-

Thanks for the draft agenda. Totally understand about rescheduling. I am out of town next week, but will check e-mails to see if the inspection can be rescheduled.

Jeff—Thanks for the files; the ftp worked great.

All -- I'm not sure how easy it is to reschedule. I could do later in the summer, but don't know about the city. Unfortunately, George Harding here is on vacation this week, so can't check other dates with him.

I'll try and float the idea with the city; if they're receptive, on Monday we can check with George and everyone else to see if another set of days works.

The rough agenda is attached. It's conservative for time; there's a decent chance we can get through everything in less than two full days. We'll also likely move things around as it goes on, particularly to accommodate field worker's schedules.

Andrew

Andrew, Hi-

I heard from Liz that the Middlebury SSO inspection went well. A couple of things about the Burlington SSO Inspection scheduled for July 22 and 23:

- Dave is planning to attend both days, but it looks like Liz and I will not be able to attend either day. I am sorry/not happy that we are not be able to participate in the inspection - any chance it can be rescheduled?
- Is an agenda for the inspection available?
- I put on our FTP website two pdf files. One is a compilation of documents regarding the Operations, Management, and Emergency Response (OM&ER) Plans for the Burlington collection systems. My understanding is although the file refers to "BTV Main", it covers all three WWTFs and collections systems (i.e. Main, North, and Riverside). The other file is Burlington CSO Update dated December 2010. To access our FTP website, go to: <ftp://ftp.anr.state.vt.us> Do not use WWW. The user name is: ANR (all caps). The password is: public (all lower case). Once in FTP, you should find a folder titled "Spejewski" containing the two pdf files. Happy reading!

Let me know if there is anything I can do or provide.

Thanks

Jeff
